Important aspects of practical activities:

Scientific-pedagogical Together, the main field of my work is practical work, which has given me rich experience in working in economic-management, entrepreneurial-commercial, public-official, independent auditing, evaluation or non-entrepreneurial (non-commercial) structures. This creates the prerequisites for me to use factual, conflictual or precedent cases when conducting lectures, seminars and discussion topics.

In non-profit (non-commercial) structures I represent A(A)I Federation of Auditors, Accountants and Financial Managers, which serves to protect professional interests and improve the legislative and practical aspects of accounting and auditing activities in Georgia, as well as to ensure continuous education and quality control.

Information I confirm the correctness:

I. Papaskua
